RESOLUTION OF STATE PUBLIC WORKS BOARD APPROVING  
ACQUISITION OF REAL PROPERTY FOR  
THE DEPARTMENT OF PARKS AND RECREATION

Parcels 9043 and 9044 - Millerton Lake State Recreational Area  
(Big Table Mountain Project) - Fresno County

WHEREAS, the Property Acquisition Law (Part 11, Division 3, Title 2 of the Government Code of the State of California) empowers the State Public Works Board to acquire, on behalf of the State of California, real property selected for acquisition by the Department of Parks and Recreation pursuant to subdivision (b) and (c) of Section 5006 of the Public Resources Code; and

WHEREAS, Fish and Game Code Section 2787(A)(2) of the Habitat Conservation Fund of 1991 (F&G Code 262-3790-810) makes an appropriation to the Department of Parks and Recreation for expenditure under the provisions of the Property Acquisition Law for the acquisition of real property for the Millerton Lake State Recreational Area project; and

WHEREAS, this is a joint acquisition of real property between the Wildlife Conservation Board, acting as the lead agency, and the Department of Parks and Recreation. The Department of Parks and Recreation has selected their portion of the real property described in the hereinafter identified deed for acquisition and both agencies have dedicated the real property to habitat protection and park and open space uses; and

WHEREAS, it appears that the owners of the property have agreed to sell said real property to the State for the consideration set forth in and subject to the terms and conditions of the hereinafter identified agreement.

NOW, THEREFORE, BE IT RESOLVED that the State Public Works Board, by unanimous vote, hereby determines that the consideration set forth in the hereinafter identified agreement is fair and reasonable for the purchase of the property and acquisition by condemnation is not necessary.

RESOLUTION OF STATE PUBLIC WORKS BOARD APPROVING  
ACQUISITION OF REAL PROPERTY FOR  
THE DEPARTMENT OF PARKS AND RECREATION

Parcels 9043 and 9044 - Millerton Lake State Recreational Area  
(Big Table Mountain Project) - Fresno County

WHEREAS, the Property Acquisition Law (Part 11, Division 3, Title 2 of the Government Code of the State of California) empowers the State Public Works Board to acquire, on behalf of the State of California, real property selected for acquisition by the Department of Parks and Recreation pursuant to subdivision (b) and (c) of Section 5006 of the Public Resources Code; and

WHEREAS, Fish and Game Code Section 2787(A)(2) of the Habitat Conservation Fund of 1991 (F&G Code 262-3790-810) makes an appropriation to the Department of Parks and Recreation for expenditure under the provisions of the Property Acquisition Law for the acquisition of real property for the Millerton Lake State Recreational Area project; and

WHEREAS, this is a joint acquisition of real property between the Wildlife Conservation Board, acting as the lead agency, and the Department of Parks and Recreation. The Department of Parks and Recreation has selected their portion of the real property described in the hereinafter identified deed for acquisition and both agencies have dedicated the real property to habitat protection and park and open space uses; and

WHEREAS, it appears that the owners of the property have agreed to sell said real property to the State for the consideration set forth in and subject to the terms and conditions of the hereinafter identified agreement.

NOW, THEREFORE, BE IT RESOLVED that the State Public Works Board, by unanimous vote, hereby determines that the consideration set forth in the hereinafter identified agreement is fair and reasonable for the purchase of the property and acquisition by condemnation is not necessary.

RESOLUTION OF STATE PUBLIC WORKS BOARD APPROVING  
ACQUISITION OF REAL PROPERTY FOR  
THE DEPARTMENT OF PARKS AND RECREATION

Parcels 9043 and 9044 - Millerton Lake State Recreational Area  
(Big Table Mountain Project) - Fresno County

WHEREAS, the Property Acquisition Law (Part 11, Division 3, Title 2 of the Government Code of the State of California) empowers the State Public Works Board to acquire, on behalf of the State of California, real property selected for acquisition by the Department of Parks and Recreation pursuant to subdivision (b) and (c) of Section 5006 of the Public Resources Code; and

WHEREAS, Fish and Game Code Section 2787(A)(2) of the Habitat Conservation Fund of 1991 (F&G Code 262-3790-810) makes an appropriation to the Department of Parks and Recreation for expenditure under the provisions of the Property Acquisition Law for the acquisition of real property for the Millerton Lake State Recreational Area project; and

WHEREAS, this is a joint acquisition of real property between the Wildlife Conservation Board, acting as the lead agency, and the Department of Parks and Recreation. The Department of Parks and Recreation has selected their portion of the real property described in the hereinafter identified deed for acquisition and both agencies have dedicated the real property to habitat protection and park and open space uses; and

WHEREAS, it appears that the owners of the property have agreed to sell said real property to the State for the consideration set forth in and subject to the terms and conditions of the hereinafter identified agreement.

NOW, THEREFORE, BE IT RESOLVED that the State Public Works Board, by unanimous vote, hereby determines that the consideration set forth in the hereinafter identified agreement is fair and reasonable for the purchase of the property and acquisition by condemnation is not necessary.

MEMORANDUM OF UNDERSTANDING

between

STATE DEPARTMENT OF PARKS AND RECREATION

and

STATE WILDLIFE CONSERVATION BOARD

For the joint or cooperative acquisition of real property for park, interpretative, viewshed protection, and/or habitat protection purposes near Millerton Lake State Recreational Area.

It is the intent of this Memorandum of Understanding by and between the Department of Parks and Recreation, referred to herein as "Department", and the Wildlife Conservation Board, referred to herein as "Board", to establish a relationship to provide for the joint, mutual or cooperative acquisition, operation and management of certain real property within the County of Fresno for the mutual or joint purpose of achieving park, interpretative, viewshed protection and/or habitat protection objectives near Millerton Lake SRA.

The components of this understanding are as follows:

1. The Department and the Board will work together to jointly, mutually or cooperatively acquire all 1,017.5 acres of real property delineated on Exhibit "A", attached hereto and made a part hereof, suitable for park, interpretative, viewshed and habitat protection, and/or similar uses.
2. The Board will serve as the lead agency in this acquisition and, as such, will initiate, administer and pay for all litigation guaranties, policies of title insurance, appraisal reports, purchase negotiations, relocation planning and assistance (if required), CEQA compliance, escrow accounts and Department of General Services administrative reviews and processing work. The Board will be responsible for all administrative and overhead costs associated with this acquisition, and the Department shall be responsible for its own administrative and overhead costs associated with this acquisition.
3. The Department has been appropriated funding in the amount of \$605,000 from the Habitat Conservation Fund for the purpose of supplementing the Board's funds to enable an acquisition of said property. No additional funding is available from the Department to fund this acquisition.
4. The Department shall take such steps as may be necessary to provide for deposit of \$605,000.00 to escrow as outlined in Paragraph 5 hereof. The Board shall take such steps as may be necessary to fund the balance of the purchase price and related costs.

5. Each party agrees to place its funding into an escrow established by the Board no later than thirty (30) days following Public Works Board authorization of the purchase, unless the Board specifies a later date for the deposit of funds into escrow. The Board shall so specify if it is anticipated that the close will be delayed more than sixty (60) days following Public Works Board action.
6. All property acquired pursuant to this understanding will vest in the State of California. Control and possession of the acquired property will be divided between the Department and the Board, or the Board's assignee, proportionate to the amount of funding contributed to the actual purchase of the property. The division of the property will be approximately along the line shown on the Exhibit "A" map, attached. Both parties will have control and possession of any and all existing and future access easements for ingress and egress to the acquired property.
7. The Board may assign its acquired interest in the property to the Department or another appropriate State department.
8. The Department will operate and manage the acquired property at no cost to the Board or its assignee. The Department and the Board, or its assignee, will cooperate in establishing mutually acceptable policies and procedures for the long term operation and management of the property acquired and will enter into a written agreement to provide for such an arrangement within one hundred twenty (120) days following close of escrow.
9. It is intended by the parties that the primary focus of the management of the property be wildlife and sensitive habitat preservation. It is also intended by the parties that the property may be utilized for compatible park and interpretive purposes. In cases where park and interpretive uses would be in conflict with wildlife and sensitive species preservation, such conflicts will be resolved in favor of wildlife and sensitive species preservation.
10. Each party shall indemnify, defend and hold the other, its officers, agents and employees, harmless from any and all claims and losses occurring or resulting to that other by that party in the furnishing or supplying of work, services, materials or supplies in connection with the performance of this understanding and from any and all liability of claims and losses occurring or resulting to any person, firm or corporation who may be injured or damaged by that party in the performance of this understanding, except for liability arising out of the sole negligence of either party, including its officers, agents and employees.

11. The Department's designated representative for purposes of this acquisition effort will be:

Robert Baxter, Associate Landscape Architect  
Acquisition Section, Room 1147  
1416 Ninth Street  
Sacramento, CA 95814  
(Phone 916-653-9915)

## Appendix B, MOU with DPR

### MEMORANDUM OF UNDERSTANDING

between

STATE DEPARTMENT OF PARKS AND RECREATION

and

STATE DEPARTMENT OF FISH AND GAME

To cooperatively prepare an Operation and Management Plan for the 1,017.5 acre property adjacent to Millerton Lake State Recreation Area jointly acquired by the Wildlife Conservation Board and the Department of Parks and Recreation known herein as the "Big Table Mountain Acquisition".

It is the intent of this Memorandum of Understanding by and between the Department of Parks and Recreation referred herein as "DPR" and the Department of Fish and Game referred herein as "DFG" to establish a relationship to provide for the cooperative establishment of mutually acceptable long term management and operation policies and procedures for the Big Table Mountain Acquisition within the County of Fresno for the mutual or joint purpose of achieving park, interpretive, viewshed protection and/or habitat protection objectives near Millerton Lake State Recreation Area.

The components of this understanding are as follows:

1. DPR will manage and operate the acquired property at no cost to DFG as part of Millerton Lake State Recreation Area.
2. It is intended by the parties that the primary focus of the management of the property be wildlife and sensitive habitat preservation. It is also intended by the parties that the property may be utilized for compatible park and interpretive purposes. In cases where park and interpretive uses conflict with wildlife and sensitive species preservation, such conflicts will be resolved in favor of wildlife and sensitive species preservation.
3. DPR will, through its existing unit classification procedures, seek a designation of Natural Preserve for the table top portion of the acquisition. Such designation to include the volcanic cliffs and at least the highest 200 feet of the talus slope below the volcanic cliffs.

4. The management and operation of the property will, minimally, address the following issues:
  - a. Public use and access
  - b. Cattle and horse grazing
  - c. Threatened, rare and endangered plant and animal species.
  - d. Hunting
  - e. Cultural resource protection
  - f. Access easements
  - g. Inventory of features
  - h. Maintenance of facilities
  - i. Interpretation of features
  - j. Proposed facilities
  - k. Natural resource protection and management
5. Interim operations will permit public entry by vehicle on a guided tour basis only.
6. Domestic animal grazing will be permitted only if it can be shown to benefit the preservation or protection of natural resources.
7. Each Party shall indemnify, defend and hold the other, its officers, agents and employees harmless from any claims and losses occurring or resulting to that other by that party in the furnishing or supplying of work, services, materials or supplies in connection with the performance of this understanding and from any and all liability of claims and losses occurring or resulting to any person, firm or corporation who may be injured or damaged by that party in the performance of this understanding, except for liability arising out of the sole negligence of either party, including its officers, agents and employees.

## Appendix C, MOU with SFC, BLM, BOR

DRAFT; DPR Dated 1/13/00 10:36 AM

### COOPERATIVE RESOURCE MANAGEMENT MEMORANDUM OF UNDERSTANDING BIG TABLE MOUNTAIN COUNTIES OF FRESNO AND MADERA (?), CALIFORNIA

This Memorandum of Understanding (MOU) is entered into by and between the following parties ("Parties") and dated for identification purposes \_\_\_\_\_, 2000.

State Parties: California Department of Parks and Recreation  
("State Parks")  
California Department of Fish and Game ("DFG")

Federal Parties: Bureau of Land Management ("BLM")  
Bureau of Reclamation ("Reclamation")

Private Party: Sierra Foothill Conservancy (a non-profit corporation)  
("Sierra")

#### Recitals

WHEREAS; The above-named Parties own or control lands in the area described in Exhibit "A" and, for purposes of this MOU, is identified as the Big Table Mountain Area ("Properties"), and

WHEREAS; The Properties are operated and managed by the respective Parties with the mission and objective of preserving and conserving the ecological conditions and natural resources on the Properties, and

WHEREAS; The Parties acknowledge that coordinated and consistent management of the Properties is an important tool in the effective and efficient management of the Properties, and

WHEREAS; The Parties desire and intend to manage the Properties as an ecological whole, without regard to legal boundary lines, and

WHEREAS; The Parties desire to plan and manage the Properties so as to provide the greatest extent of coordinated use of the Parties' respective existing and available staff, equipment, funds and any other resources,

NOW, THEREFORE; The Parties enter into this MOU for the purpose of setting out the provisions whereby the Parties will coordinate their respective planning and daily management activities with regard to the Properties.

#### Provisions

1. Term: The Term of this MOU is five (5) years commencing \_\_\_\_\_, 2000 and ending \_\_\_\_\_, 2004.
2. Properties: By mutual consent, the Properties will collectively be referred to as the Big Table Mountain Area.
3. Coordination: To the extent feasible, and in accordance with the laws and regulations affecting and guiding the respective Parties, the Parties will coordinate resource management and manipulation, public entry and use of the Properties, enforcement, development and operation of the Properties in accordance with the provisions of this MOU.
4. Management Plan: The details of ongoing and daily management of the Properties will be provided for by a separate Big Table Mountain Management Plan ("Plan"), which is currently under development. The Parties agree to continue their respective efforts to produce the Plan and to abide by the provisions of that Plan. When completed, the Plan shall be considered a part of this MOU by this reference and incorporated as if fully set forth in this MOU. The Plan is intended to be a dynamic document, subject to revision from time to time based on data obtained from ongoing field monitoring in accordance with the Plan. The Plan, and any changes, shall be made in accordance with consensus among the Parties.
5. Resource commitment: The Parties agree to commit their respective available resources towards the objectives of this MOU, but no Party shall be obligated to provide or expend any funds, staff, equipment or other resources over and above what such Party is normally authorized in connection with the management and operation of its respective lands. Each Party shall designate a liaison person to facilitate the purposes of this MOU.
6. Right of Entry/Indemnity: The Parties hereby grant to each of the other Parties a right of entry as may be needed to carry out the purposes of this MOU and the daily management activities as spelled out in the Plan. Neither this right of entry, or any other provision of this MOU, shall be interpreted to mean that a Party assumes any responsibility for liability or claims of third parties on lands of another Party. Each Party

agrees to protect, hold harmless, indemnify and defend the other Parties from and against liability, claims, and costs (including reasonable legal and consultant expenses), arising from lands of another Party, except for claims that arise based on the negligence or other legally wrongful act of the indemnified Party.

7. Amendment: This MOU may be amended by consent of the Parties made in writing.
8. Counterparts: The MOU may be executed in counterparts with each counterpart, when taken all together, constitute a full and complete binding document.
9. Severability: Should any provision of this MOU be found to be invalid as to any Party, such invalidity shall not affect the remainder the MOU and it shall be enforceable as if the invalid provision were never included.
10. Termination: Any Party may terminate its participation under the MOU by providing sixty (60) days written notice to each of the other Parties. In the event of termination, whether by early notice of a Party, or by the terms of the MOU, the indemnity provisions shall remain in force for a period of time not to exceed the applicable statute of limitations, and sufficient to reach final resolution, with regard to any claims that may have arisen during the term of the MOU.
11. Existing law: This MOU does not supercede or modify existing statutory authority or direction of the Parties and the Parties will continue to work within existing statutory authority.
12. Applicable law: Enforcement of the provisions of this MOU shall be in accordance with the laws of the State of California and the Parties consent to the jurisdiction of the Superior Court of the County of Fresno as to any enforcement action that may be needed. It is the intent of the Parties that the provisions of the MOU be interpreted in the broadest manner so as to give effect to the purposes of the MOU. However, no Party shall be required to participate in a cooperative activity that it, in good faith, believes is not consistent with its underlying statutory, regulatory, budget authority or the policies of its respective entity.
13. Notices: Notices shall be given to each of the other Parties in writing by first-class mail or personal delivery at the addresses shown below.

[Signing Parties to be listed with addresses, etc.]

### Environmental Checklist Form

1. Project title: Big Table Mountain Land Management Plan
2. Lead agency name and address:  
The Resources Agency, Department of Fish and Game, Region 4 Conservation Planning  
1234 East Shaw Avenue  
Fresno, CA 93710
3. Contact person and phone number: Steve Juarez (559) 243-4017 ext. 224
4. Project location: Big Table Mountain, Fresno County
5. Project sponsor's name and address:  
The Resources Agency, Department of Fish and Game, Region 4 Conservation Planning  
1234 East Shaw Avenue  
Fresno, CA 93710
6. General plan designation: N/A 7. Zoning: N/A
8. Description of project: (Describe the whole action involved, including but not limited to later phases of the project, and any secondary, support, or off-site features necessary for its implementation. Attach additional sheets if necessary.)  
The Comprehensive Land Management Plan for Big Table Mountain guides management of habitats, species and interpretive programs in order to protect and enhance the area as a resource for wildlife. The plan also outlines the property's operation and maintenance needs.
9. Surrounding land uses and setting: Briefly describe the project's surroundings:  
Big Table Mountain occupies 1017.5 acres of foothill woodland, northern basalt flow vernal pools, and California annual grassland communities. California annual grassland dominates the landscape, which requires a certain level of management, be it through grazing, burning or invasive species control to decrease the abundance of thatch and undesirable species. The surrounding areas are managed for recreation, grazing, private use and habitat protection.
10. Other public agencies whose approval is required (e.g., permits, financing approval, or participation agreement.)  
N/A

#### ENVIRONMENTAL FACTORS POTENTIALLY AFFECTED:

The environmental factors checked below would be potentially affected by this project, involving at least one impact that is a "Potentially Significant Impact" as indicated by the checklist on the following pages.

DETERMINATION: (To be completed by the Lead Agency)

On the basis of this initial evaluation:

- ☒ I find that the proposed project COULD NOT have a significant effect on the environment, and a NEGATIVE DECLARATION will be prepared.
- ☐ I find that although the proposed project could have a significant effect on the environment, there will not be a significant effect in this case because revisions in the project have been made by or agreed to by the project proponent. A MITIGATED NEGATIVE DECLARATION will be prepared.
- ☐ I find that the proposed project MAY have a significant effect on the environment, and an ENVIRONMENTAL IMPACT REPORT is required.
- ☐ I find that the proposed project MAY have a "potentially significant impact" or "potentially significant unless mitigated" impact on the environment, but at least one effect 1) has been adequately analyzed in an earlier document pursuant to applicable legal standards, and 2) has been addressed by mitigation measures based on the earlier analysis as described on attached sheets. An ENVIRONMENTAL IMPACT REPORT is required, but it must analyze only the effects that remain to be addressed.
- ☐ I find that although the proposed project could have a significant effect on the environment, because all potentially significant effects (a) have been analyzed adequately in an earlier EIR or NEGATIVE DECLARATION pursuant to applicable standards, and (b) have been avoided or mitigated pursuant to that earlier EIR or NEGATIVE DECLARATION, including revisions or mitigation measures that are imposed upon the proposed project, nothing further is required.

#### EVALUATION OF ENVIRONMENTAL IMPACTS:

- 1) A brief explanation is required for all answers except "No Impact" answers that are adequately supported by the information sources a lead agency cites in the parentheses following each question. A "No Impact" answer is adequately supported if the referenced information sources show that the impact simply does not apply to projects like the one involved (e.g., the project falls outside a fault rupture zone). A "No Impact" answer should be explained where it is based on project-specific factors as well as general standards (e.g., the project will not expose

sensitive receptors to pollutants, based on a project-specific screening analysis).

- 2) All answers must take account of the whole action involved, including off-site as well as on-site, cumulative as well as project-level, indirect as well as direct, and construction as well as operational impacts.
- 3) Once the lead agency has determined that a particular physical impact may occur, then the checklist answers must indicate whether the impact is potentially significant, less than significant with mitigation, or less than significant. "Potentially Significant Impact" is appropriate if there is substantial evidence that an effect may be significant. If there are one or more "Potentially Significant Impact" entries when the determination is made, an EIR is required.
- 4) "Negative Declaration: Less Than Significant With Mitigation Incorporated" applies where the incorporation of mitigation measures has reduced an effect from "Potentially Significant Impact" to a "Less Than Significant Impact." The lead agency must describe the mitigation measures, and briefly explain how they reduce the effect to a less than significant level (mitigation measures from Section XVII, "Earlier Analyses," may be cross-referenced).
- 5) Earlier analyses may be used where, pursuant to the tiering, program EIR, or other CEQA process, an effect has been adequately analyzed in an earlier EIR or negative declaration. Section 15063(c)(3)(D). In this case, a brief discussion should identify the following:
  - a) Earlier Analysis Used. Identify and state where they are available for review.
  - b) Impacts Adequately Addressed. Identify which effects from the above checklist were within the scope of and adequately analyzed in an earlier document pursuant to applicable legal standards, and state whether such effects were addressed by mitigation measures based on the earlier analysis.
  - c) Mitigation Measures. For effects that are "Less than Significant with Mitigation Measures Incorporated," describe the mitigation measures which were incorporated or refined from the earlier document and the extent to which they address site-specific conditions for the project.
- 6) Lead agencies are encouraged to incorporate into the checklist references to information sources for potential impacts (e.g., general plans, zoning ordinances). Reference to a previously prepared or outside document should, where appropriate, include a reference to the page or pages where the statement is substantiated.
- 7) Supporting Information Sources: A source list should be attached, and other sources used or individuals contacted should be cited in the discussion.
- 8) This is only a suggested form, and lead agencies are free to use different formats; however, lead agencies should normally address the questions from this checklist that are relevant to a project's environmental effects in whatever format is selected.
- 9) The explanation of each issue should identify:
  - a) the significance criteria or threshold, if any, used to evaluate each question; and
  - b) the mitigation measure identified, if any, to reduce the impact to less than significance

## SAMPLE QUESTION

Issues:

	Potentially Significant Impact	Less Than Significant With Mitigation Incorporation	Less Than Significant Impact	No Impact
<u>I. AESTHETICS</u> -- Would the project:				
a) Have a substantial adverse effect on a scenic vista?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Substantially damage scenic resources, including, but not limited to, trees, rock outcroppings, and historic buildings within a state scenic highway?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c) Substantially degrade the existing visual character or quality of the site and its surroundings?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d) Create a new source of substantial light or glare which would adversely affect day or nighttime views in the area?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
<u>II. AGRICULTURE RESOURCES:</u> In determining whether impacts to agricultural resources are significant environmental effects, lead agencies may refer to the California Agricultural Land Evaluation and Site Assessment Model (1997) prepared by the California Dept. of Conservation as an optional model to use in assessing impacts on agriculture and farmland. Would the project:				
a) Convert Prime Farmland, Unique Farmland, or Farmland of Statewide Importance (Farmland), as shown on the maps prepared pursuant to the Farmland Mapping and Monitoring Program of the California Resources Agency, to non-agricultural use?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Conflict with existing zoning for agricultural use, or a Williamson Act contract?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c) Involve other changes in the existing environment which, due to their location or nature, could result in conversion of Farmland, to non-agricultural use?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
<u>III. AIR QUALITY</u> -- Where available, the significance criteria established by the applicable air quality management or air pollution control district may be relied upon to make the following determinations. Would the project:				

- |   |                          |                          |                          |                                     |
|---|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a) Conflict with or obstruct implementation of the applicable air quality plan?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b) Violate any air quality standard or contribute substantially to an existing or projected air quality violation?  | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c) Result in a cumulatively considerable net increase of any criteria pollutant for which the project region is non-attainment under an applicable federal or state ambient air quality standard (including releasing emissions which exceed quantitative thresholds for ozone precursors)? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| d) Expose sensitive receptors to substantial pollutant concentrations?  | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| e) Create objectionable odors affecting a substantial number of people?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

IV. BIOLOGICAL RESOURCES -- Would the project:

- |  |                          |                          |                          |                                     |
|--|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a) Have a substantial adverse effect, either directly or through habitat modifications, on any species identified as a candidate, sensitive, or special status species in local or regional plans, policies, or regulations, or by the California Department of Fish and Game or U.S. Fish and Wildlife Service? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b) Have a substantial adverse effect on any riparian habitat or other sensitive natural community identified in local or regional plans, policies, regulations or by the California Department of Fish and Game or US Fish and Wildlife Service?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c) Have a substantial adverse effect on federally protected wetlands as defined by Section 404 of the Clean Water Act (including, but not limited to, marsh, vernal pool, coastal, etc.) through direct removal, filling, hydrological interruption, or other means?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| d) Interfere substantially with the movement of any native resident or migratory fish or wildlife species or with established native resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

e) Conflict with any local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance? ☐ ☐ ☐ ☒

f) Conflict with the provisions of an adopted Habitat Conservation Plan, Natural Community Conservation Plan, or other approved local, regional, or state habitat conservation plan? ☐ ☐ ☐ ☒

V. CULTURAL RESOURCES -- Would the project:

a) Cause a substantial adverse change in the significance of a historical resource as defined in §15064.5? ☐ ☐ ☐ ☒

b) Cause a substantial adverse change in the significance of an archaeological resource pursuant to §15064.5? ☐ ☐ ☐ ☒

c) Directly or indirectly destroy a unique paleontological resource or site or unique geologic feature? ☐ ☐ ☐ ☒

d) Disturb any human remains, including those interred outside of formal cemeteries? ☐ ☐ ☐ ☒

VI. GEOLOGY AND SOILS -- Would the project:

a) Expose people or structures to potential substantial adverse effects, including the risk of loss, injury, or death involving: ☐ ☐ ☐ ☒

i) Rupture of a known earthquake fault, as delineated on the most recent Alquist-Priolo Earthquake Fault Zoning Map issued by the State Geologist for the area or based on other substantial evidence of a known fault? Refer to Division of Mines and Geology Special Publication 42. ☐ ☐ ☐ ☒

ii) Strong seismic ground shaking? ☐ ☐ ☐ ☒

iii) Seismic-related ground failure, including liquefaction? ☐ ☐ ☐ ☒

iv) Landslides? ☐ ☐ ☐ ☒

b) Result in substantial soil erosion or the loss of topsoil? ☐ ☐ ☐ ☒

c) Be located on a geologic unit or soil that is unstable, or that would become unstable as a result of the project, and potentially result in on- or off-site landslide, lateral spreading, subsidence, liquefaction or collapse? ☐ ☐ ☐ ☒

d) Be located on expansive soil, as defined in Table 18-1-B of the Uniform Building Code (1994), creating substantial risks to life or property? ☐ ☐ ☐ ☒

e) Have soils incapable of adequately supporting the use of septic tanks or alternative waste water disposal systems where sewers are not available for the disposal of waste water?

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

## VII. HAZARDS AND HAZARDOUS MATERIALS --

Would the project:

a) Create a significant hazard to the public or the environment through the routine transport, use, or disposal of hazardous materials?

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

b) Create a significant hazard to the public or the environment through reasonably foreseeable upset and accident conditions involving the release of hazardous materials into the environment?

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

c) Emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school?

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

d) Be located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and, as a result, would it create a significant hazard to the public or the environment?

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

e) For a project located within an airport land use plan or, where such a plan has not been adopted, within two miles of a public airport or public use airport, would the project result in a safety hazard for people residing or working in the project area?

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

f) For a project within the vicinity of a private airstrip, would the project result in a safety hazard for people residing or working in the project area?

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

g) Impair implementation of or physically interfere with an adopted emergency response plan or emergency evacuation plan?

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

h) Expose people or structures to a significant risk of loss, injury or death involving wildland fires, including where wildlands are adjacent to urbanized areas or where residences are intermixed with wildlands?

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

## VIII. HYDROLOGY AND WATER QUALITY -- Would the project:

a) Violate any water quality standards or waste discharge requirements?

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

b) Substantially deplete groundwater supplies or interfere substantially with groundwater recharge such that there would be a net deficit in aquifer volume or a lowering of the local groundwater table level (e.g., the production rate of pre-existing nearby wells would drop to a level which would not support existing land uses or planned uses for which permits have been granted)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c) Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, in a manner which would result in substantial erosion or siltation on- or off-site?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d) Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, or substantially increase the rate or amount of surface runoff in a manner which would result in flooding on- or off-site?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
e) Create or contribute runoff water which would exceed the capacity of existing or planned stormwater drainage systems or provide substantial additional sources of polluted runoff?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
f) Otherwise substantially degrade water quality?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
g) Place housing within a 100-year flood hazard area as mapped on a federal Flood Hazard Boundary or Flood Insurance Rate Map or other flood hazard delineation map?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
h) Place within a 100-year flood hazard area structures which would impede or redirect flood flows?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
i) Expose people or structures to a significant risk of loss, injury or death involving flooding, including flooding as a result of the failure of a levee or dam?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
j) Inundation by seiche, tsunami, or mudflow?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
<b>IX. LAND USE AND PLANNING - Would the project:</b>				
a) Physically divide an established community?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Conflict with any applicable land use plan, policy, or regulation of an agency with jurisdiction over the project (including, but not limited to the general plan, specific plan, local coastal program, or zoning ordinance) adopted for the purpose of avoiding or mitigating an environmental effect?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c) Conflict with any applicable habitat conservation plan or natural community conservation plan?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

X. MINERAL RESOURCES -- Would the project:

- |   |                          |                          |                          |                                     |
|---|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a) Result in the loss of availability of a known mineral resource that would be of value to the region and the residents of the state?                                | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b) Result in the loss of availability of a locally-important mineral resource recovery site delineated on a local general plan, specific plan or other land use plan? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

XI. NOISE --

Would the project result in:

- |   |                          |                          |                          |                                     |
|---|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a) Exposure of persons to or generation of noise levels in excess of standards established in the local general plan or noise ordinance, or applicable standards of other agencies?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b) Exposure of persons to or generation of excessive groundborne vibration or groundborne noise levels?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c) A substantial permanent increase in ambient noise levels in the project vicinity above levels existing without the project?  | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| d) A substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels existing without the project?  | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| e) For a project located within an airport land use plan or, where such a plan has not been adopted, within two miles of a public airport or public use airport, would the project expose people residing or working in the project area to excessive noise levels? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| f) For a project within the vicinity of a private airstrip, would the project expose people residing or working in the project area to excessive noise levels?  | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

XII. POPULATION AND HOUSING -- Would the project:

- |   |                          |                          |                          |                                     |
|---|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a) Induce substantial population growth in an area, either directly (for example, by proposing new homes and businesses) or indirectly (for example, through extension of roads or other infrastructure)? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b) Displace substantial numbers of existing housing, necessitating the construction of replacement housing elsewhere?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c) Displace substantial numbers of people, necessitating the construction of replacement housing elsewhere?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

### XIII. PUBLIC SERVICES

a) Would the project result in substantial adverse physical impacts associated with the provision of new or physically altered governmental facilities, need for new or physically altered governmental facilities, the construction of which could cause significant environmental impacts, in order to maintain acceptable service ratios, response times or other performance objectives for any of the public services:

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

Fire protection?

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

Police protection?

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

Schools?

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

Parks?

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

Other public facilities?

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

### XIV. RECREATION --

a) Would the project increase the use of existing neighborhood and regional parks or other recreational facilities such that substantial physical deterioration of the facility would occur or be accelerated?

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

b) Does the project include recreational facilities or require the construction or expansion of recreational facilities which might have an adverse physical effect on the environment?

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

### XV. TRANSPORTATION/TRAFFIC -- Would the project:

a) Cause an increase in traffic which is substantial in relation to the existing traffic load and capacity of the street system (i.e., result in a substantial increase in either the number of vehicle trips, the volume to capacity ratio on roads, or congestion at intersections)?

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

b) Exceed, either individually or cumulatively, a level of service standard established by the county congestion management agency for designated roads or highways?

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

c) Result in a change in air traffic patterns, including either an increase in traffic levels or a change in location that results in substantial safety risks?

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

d) Substantially increase hazards due to a design feature (e.g., sharp curves or dangerous intersections) or incompatible uses (e.g., farm equipment)?

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

e) Result in inadequate emergency access?

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

f) Result in inadequate parking capacity?

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

g) Conflict with adopted policies, plans, or programs supporting alternative transportation (e.g., bus turnouts, bicycle racks)?

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

#### XVI. UTILITIES AND SERVICE SYSTEMS --

Would the project:

a) Exceed wastewater treatment requirements of the applicable Regional Water Quality Control Board?

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

b) Require or result in the construction of new water or wastewater treatment facilities or expansion of existing facilities, the construction of which could cause significant environmental effects?

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

c) Require or result in the construction of new storm water drainage facilities or expansion of existing facilities, the construction of which could cause significant environmental effects?

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

d) Have sufficient water supplies available to serve the project from existing entitlements and resources, or are new or expanded entitlements needed?

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

e) Result in a determination by the wastewater treatment provider which serves or may serve the project that it has adequate capacity to serve the project's projected demand in addition to the provider's existing commitments?

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

f) Be served by a landfill with sufficient permitted capacity to accommodate the project's solid waste disposal needs?

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

g) Comply with federal, state, and local statutes and regulations related to solid waste?

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

XVII. MANDATORY FINDINGS OF SIGNIFICANCE --

Potentially Significant Impact	Less than Significant With Mitigation	Less Than Significant Impact	No Impact
--------------------------------------	--	------------------------------------	--------------

a) Does the project have the potential to degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, reduce the number or restrict the range of a rare or endangered plant or animal or eliminate important examples of the major periods of California history or prehistory?

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

b) Does the project have impacts that are individually limited, but cumulatively considerable? ("Cumulatively considerable" means that the incremental effects of a project are considerable when viewed in connection with the effects of past projects, the effects of other current projects, and the effects of probable future projects)?

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

c) Does the project have environmental effects which will cause substantial adverse effects on human beings, either directly or indirectly?

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

## Aesthetics

No Impact – The project will improve the aesthetic quality of the site as non-native grasses are reduced.

No impact – Scenic resources will not be negatively affected.

No Impact - The project will improve the aesthetic quality of the site as non-native grasses are reduced.

No impact – The project will not introduce a new source of light.

## Agriculture Resources

No impact – No farmland exists in project area.

No Impact – The project site is not zoned for agricultural use, and therefore does not conflict with a Williamson Act contract.

No Impact – No conversion of farmland will occur.

## Air Quality

No Impact – Any prescribed burn operations will adhere to requirements established by the San Joaquin Valley Air Pollution Control District.

No Impact – No air quality violations will occur with the implementation of the project.

No Impact – No pollutants will be released.

No Impact - No pollutants will be released.

No Impact – No objectionable odors will be released.

## IV. Biological Resources

No Impact -

No Impact – The implementation of the plan is expected to improve vernal pool habitats through the reduction of non-native grasses and noxious weeds by means of grazing, prescribed burning or herbicide.

No Impact – No hydrological interruptions will occur.

No Impact – The implementation of the project is expected to improve native species' ability to migrate, move, and utilize nursery sites as non-native grasses, thatch and invasive species are reduced.

No Impact – The project is compatible with local policies protecting biological resources.

No impact – The project does not conflict with any habitat conservation plans.

#### Cultural Resources

No impact – No historical resources exist on the project site.

No Impact – No known archaeological resources exist on the project site.

No Impact – No known paleontological or unique geologic resources exist on the project site.

No Impact – No human remains exist on the project site.

#### Geology and Soils

No Impact – The project does not occur on or near a known earthquake fault.

No Impact – See above.

No Impact – See above.

No Impact – See above.

No Impact – Implementation of the project will not result in the loss of topsoil or erosion.

No Impact – The project is not located on unstable soils, nor will its implementation disturb the soil.

No Impact – The implementation of the project will not affect soils on the site.

No Impact – Does not apply. No water disposal systems will be installed.

#### Hazards and Hazardous Materials

No impact – Does not apply. No hazardous materials will be used on the project site.

No Impact – Does not apply. See above.

No Impact – Does not apply. See above.

No Impact – Does not apply. The project is not located on a hazardous materials site.

No Impact – The project will not result in a safety hazard.

No Impact – See above.

No Impact – The project does not interfere with an emergency response plan.

Less than Significant Impact – The application of prescribed fire will not occur until biomass from thatch and dry vegetation has been significantly reduced. In addition, prescribed fire will only be applied during safe and appropriate climatic conditions, within well-established firebreaks.

#### Hydrology and Water Quality

No Impact – No water will be discharged on the project site.

No Impact – The implementation of the project will not affect groundwater supplies.

No Impact – No alteration of drainage patterns will occur.

No Impact – drainage patterns will not be altered, nor will runoff occur.

No Impact – No runoff or pollutants will be released onto the project site.

No Impact – The implementation of the project will not result in degraded water quality.

No Impact – Does not apply. No construction activities will occur on the project site.

No Impact – Does not apply. See above.

No Impact – No structures exist or will be constructed on the site which could fail, resulting in flooding, loss, injury or death.

No Impact – No possibility exists for a seiche, tsunami, or mudflow to occur on the project site.

#### Land Use Planning

No Impact – Does not apply.

No Impact – The project is compatible with land use policies designed to protect the environment.

No Impact – The project is compatible with County Habitat Conservation Plans.

#### Mineral Resources

No Impact – No known mineral resources exist on the project site.

No Impact – See above.

#### Noise

No Impact – Excessive noise will not be created by the project.

No Impact – No groundborne vibrations or noise will occur.

No impact – No permanent increase in ambient noise will occur on the project site.

No impact – No substantial noise increase will occur on the project site.

No Impact – See above.

No impact – See above.

#### Population and Housing

No Impact – No new infrastructure will be constructed on the project site.

No Impact – See above.

No impact – See above.

#### Public Service

No Impact – Fire protection, Police protection, Schools and Parks will not be affected by the implementation of the project.

#### Recreation

No Impact – The implementation of the project will not affect the usage of

local parks or recreational facilities.

No Impact – No recreational facilities will be constructed on the project site.

#### Transportation/Traffic

No Impact – The implementation of the project will not affect traffic patterns.

No Impact – See above.

No Impact – See above.

No Impact – No changes will be made to existing roads.

No Impact – See above.

No Impact – Current parking area is sufficient to meet parking needs of the project site.

No Impact – The implementation of the project will not affect alternative transportation programs.

#### Utilities and Service Systems

No Impact – No wastewater will be created by any aspect of the project.

No Impact – See above.

No Impact – The project will not influence water flow to a degree that would require the construction of storm water facilities.

No Impact – No water is required for the implementation of the project.

No Impact – No wastewater will be created by the project.

No Impact – No solid waste will be created by the project.

No Impact – See above.

## Mandatory Findings of Significance

No Impact – The implementation of the project is expected to enhance wildlife habitats, as well populations of rare or endangered plant and animal species.

No Impact – No cumulatively considerable impacts will occur with the implementation of the project.

No Impact – Human beings will not be affected directly or indirectly by the project.
